UX Design, Data Visualization, Cross-platform Development

💼 EXPERIENCE

Nearsoft 🔗

Application Developer

08/2022 – present | Funchal, Portugal

- Delivered cross-platform **banking apps** in React Native & TypeScript, enabling secure OTP login, scalable navigation, and CMS integration for thousands of users.
- Collaborated with backend, design, and consultancy teams to align features with client needs.
- Mentored interns and improved onboarding efficiency.
- Enhanced performance and UI consistency with optimized navigation and reusable components.

See Health 🔗

Web Developer

09/2021 – 05/2022 | Funchal, Portugal

- Improved the **Madeira Safe platform** with responsive layouts, accessibility, and cross-device support.
- Supported a Laravel-based admin panel for streamlined content and data management.
- Built responsive websites and branded email templates, ensuring consistent design and usability.

Clínica da Sé 🔗

Technical Assistance III

09/2020 – 03/2021 | Funchal, Portugal

- Provided IT support and troubleshooting for clinic systems.
- Managed system updates and backup processes to ensure data integrity.

EDUCATION

BSc in Computer Science
